### Description

**!!!SOLD!!!**

This current-model Eppendorf microfuge is an ultra-compact, 18-place microcentrifuges that's quiet and user-friendly. Supplied with a certified aerosol-tight rotor, with click-lock lid for fast and reliable lid locking. Centrifuge lid closes with one-finger soft-touch for ergonomic operation, and opens automatically at end of run for easy sample removal. Rotor bowl is uniquely contoured for noise reduction. Additional features include full-digit display, rotary knob operation, and automatic one-button switching between speed and RCF readouts. Speed and RCF are adjustable in increments of 100. 115V.
