Description

The MaxQ 4000 Incubator Shaker SHKE4000 offers reliable orbital shaking partnered with digitally controlled temperatures with an adaptable interior. This benchtop orbital shaker roomy stainless steel perforated 18 x 18 platform can be customized with various clamps to suit needs and can handle six 2-liter flasks at the same time, supporting a max load of 50 lbs.

The variable speed of the Maxq4000 can reach up to 400 RPM powered by a triple eccentric drive DC brushless motor, agitating items in a 19 mm / 0.75" orbit. The easy-to-use SHKE4000 incubated shaker has a chamber temperature range of 10°C above ambient to 60°C, with over-temperature safety, a clear scratch-resistant lid for easy sample viewing, and a timer function, up to 60 minutes or in continuous operation all controlled from the upfront dials. For safety, these Thermo incubator shakers will power down when the lid is opened.
