Description

The Thermo Scientific MaxQ 8000 (SHKE8000) is a high-capacity, stackable orbital incubator shaker designed to maximize lab space while maintaining performance. With its robust construction and precise temperature control, it's suitable for both sensitive eukaryotic cell culture and demanding prokaryotic applications. The unit features a HEPA-filter for contamination control, a slide-out platform for full sample access, and a durable drive system that supports full-speed shaking even when multiple units are stacked.

Specifications

Speed Range: 25 – 400 rpm (± 1 rpm)

Orbital Diameter: 1.0 in (25.4 mm)

Temperature Range: Ambient +10 °C to 60 °C

Temperature Uniformity / Accuracy: ± 0.3 °C uniformity in flask; ± 0.15 °C control accuracy at 37 °C

Max Load Capacity: 71 lb (32.2 kg) per platform

Comes with our 90-day warranty.

Biotech Equipment Sales, Inc.: based in South San Francisco, the Biotech capital of the world, since 2009. We are dedicated to bringing high-quality pre-owned laboratory instrumentation to our scientific community.
